

FRONT ELEVATION

SCALE 1:5 at A3

LEFT SIDE ELEVATION

SCALE 1:5 at A3

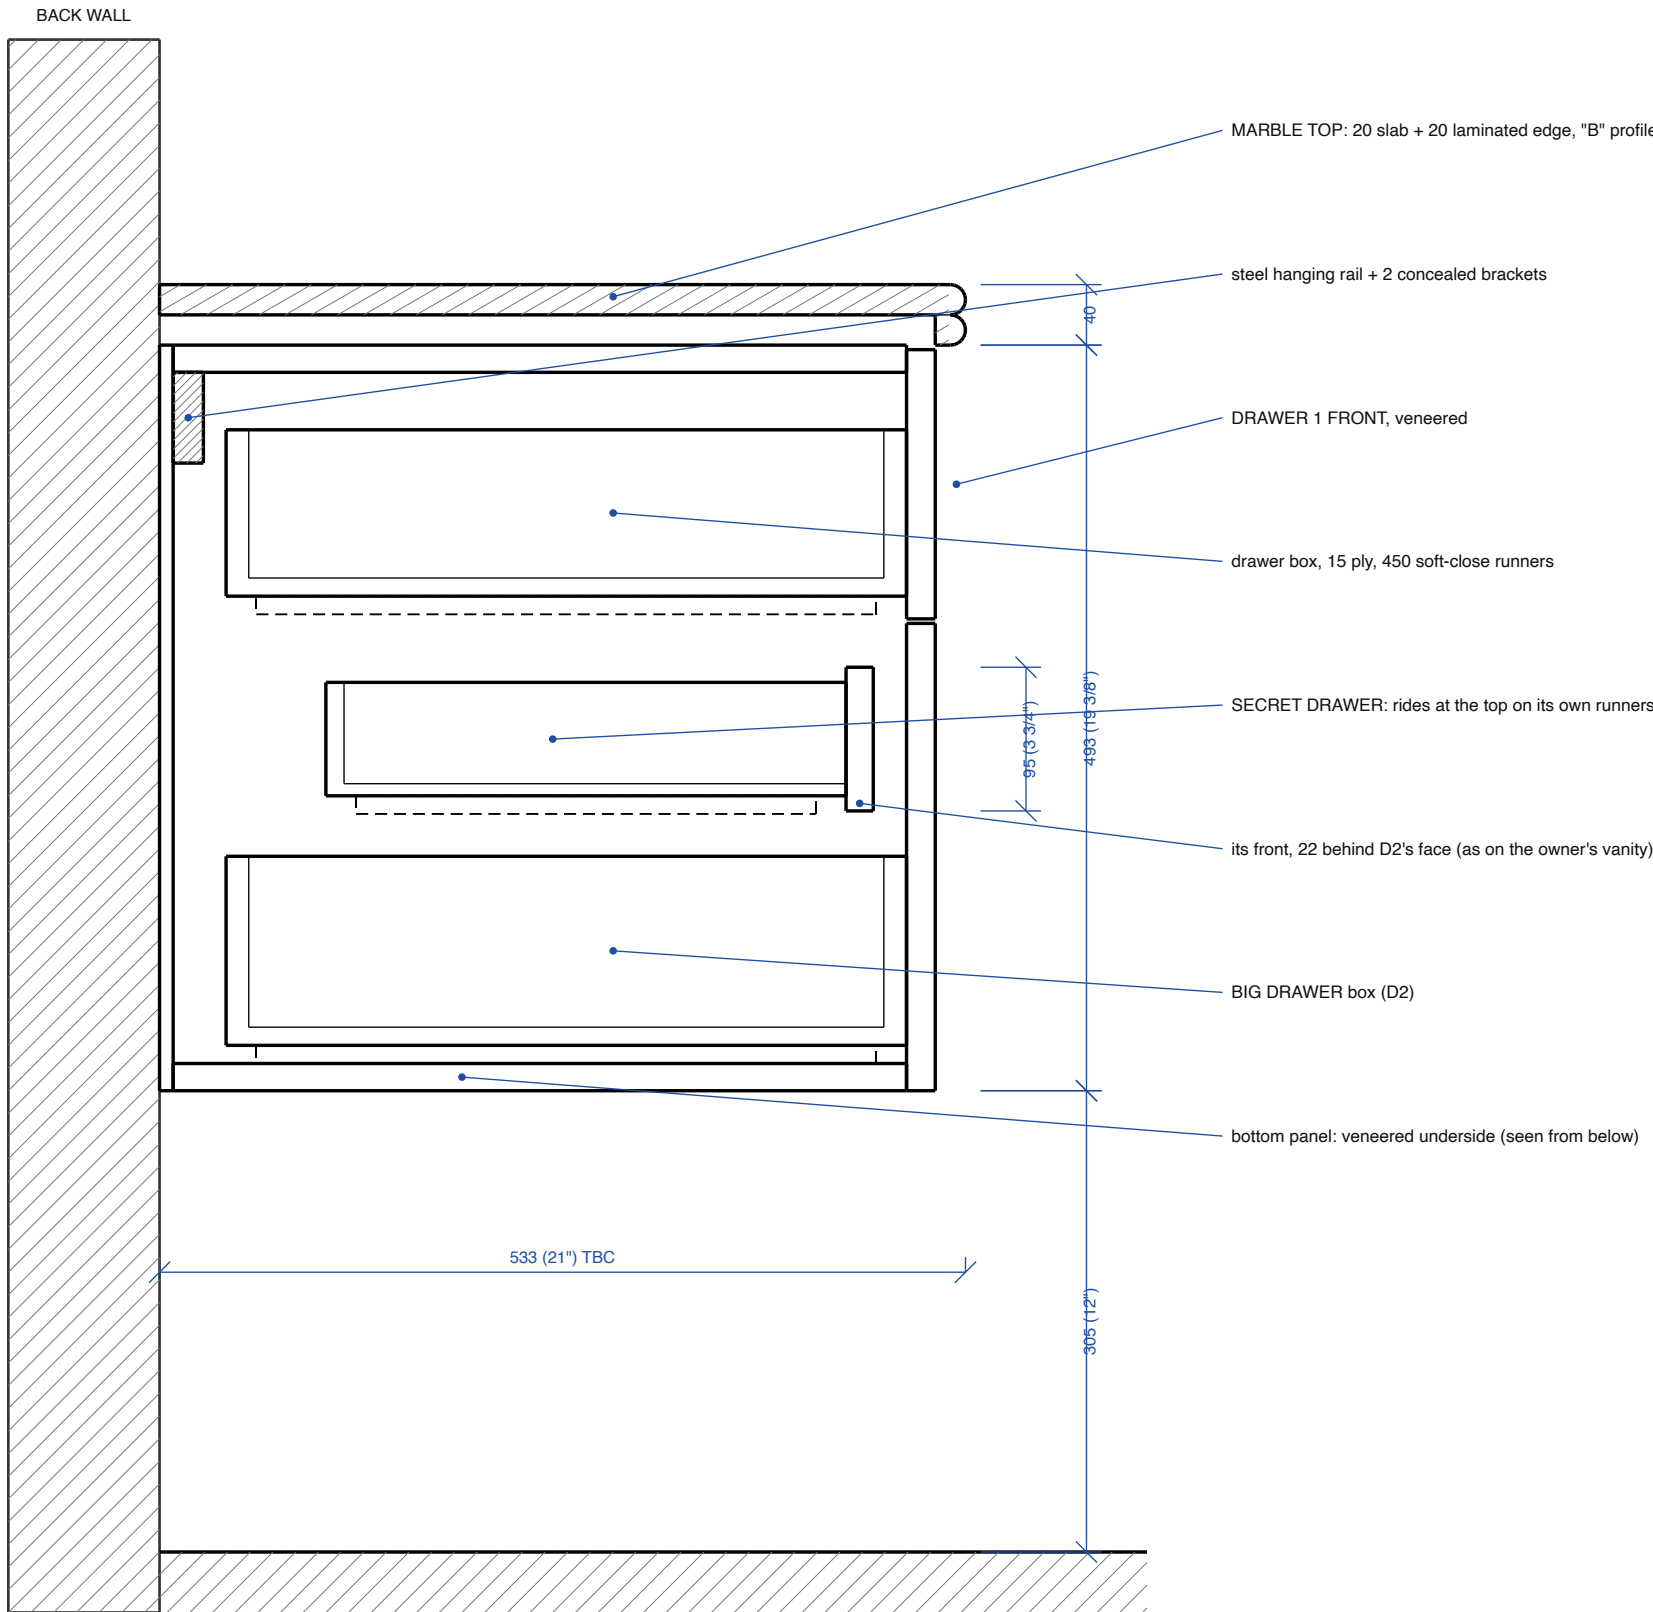

Lines: thick = visible; dashed = hidden (drawer boxes, the secret drawer); chain = centre line.
Section A–A and details: sheet 2. Plan and notes: sheet 3. Editable DXF: vanity-3ft.dxf (mm, true size).

VANITY — 3 FT, FLOATING, CORNER

Marble top with "B" edge · veneered front and left side · 2 drawers + secret drawer

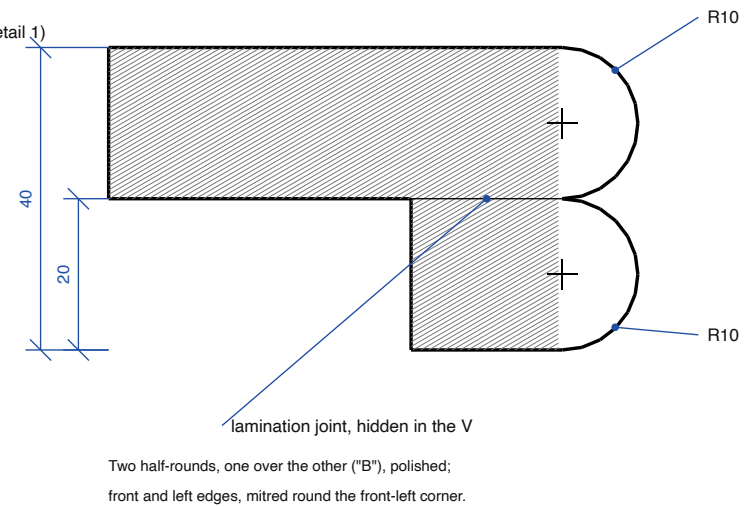

For Saksham Panchal · drawn 01.10.2026 · Rev A (first issue)

Dimensions in mm (inches). Do not scale. Check all sizes on site.

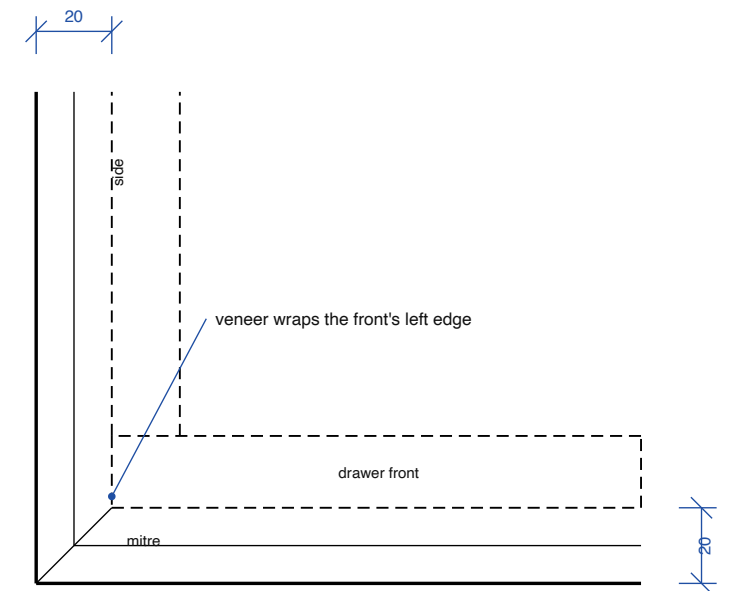

SECTION A-A

SCALE 1:5 at A3

DETAIL 1 — STONE EDGE "B"

SCALE 1:1 at A3

DETAIL 2 — FRONT-LEFT CORNER, PLAN

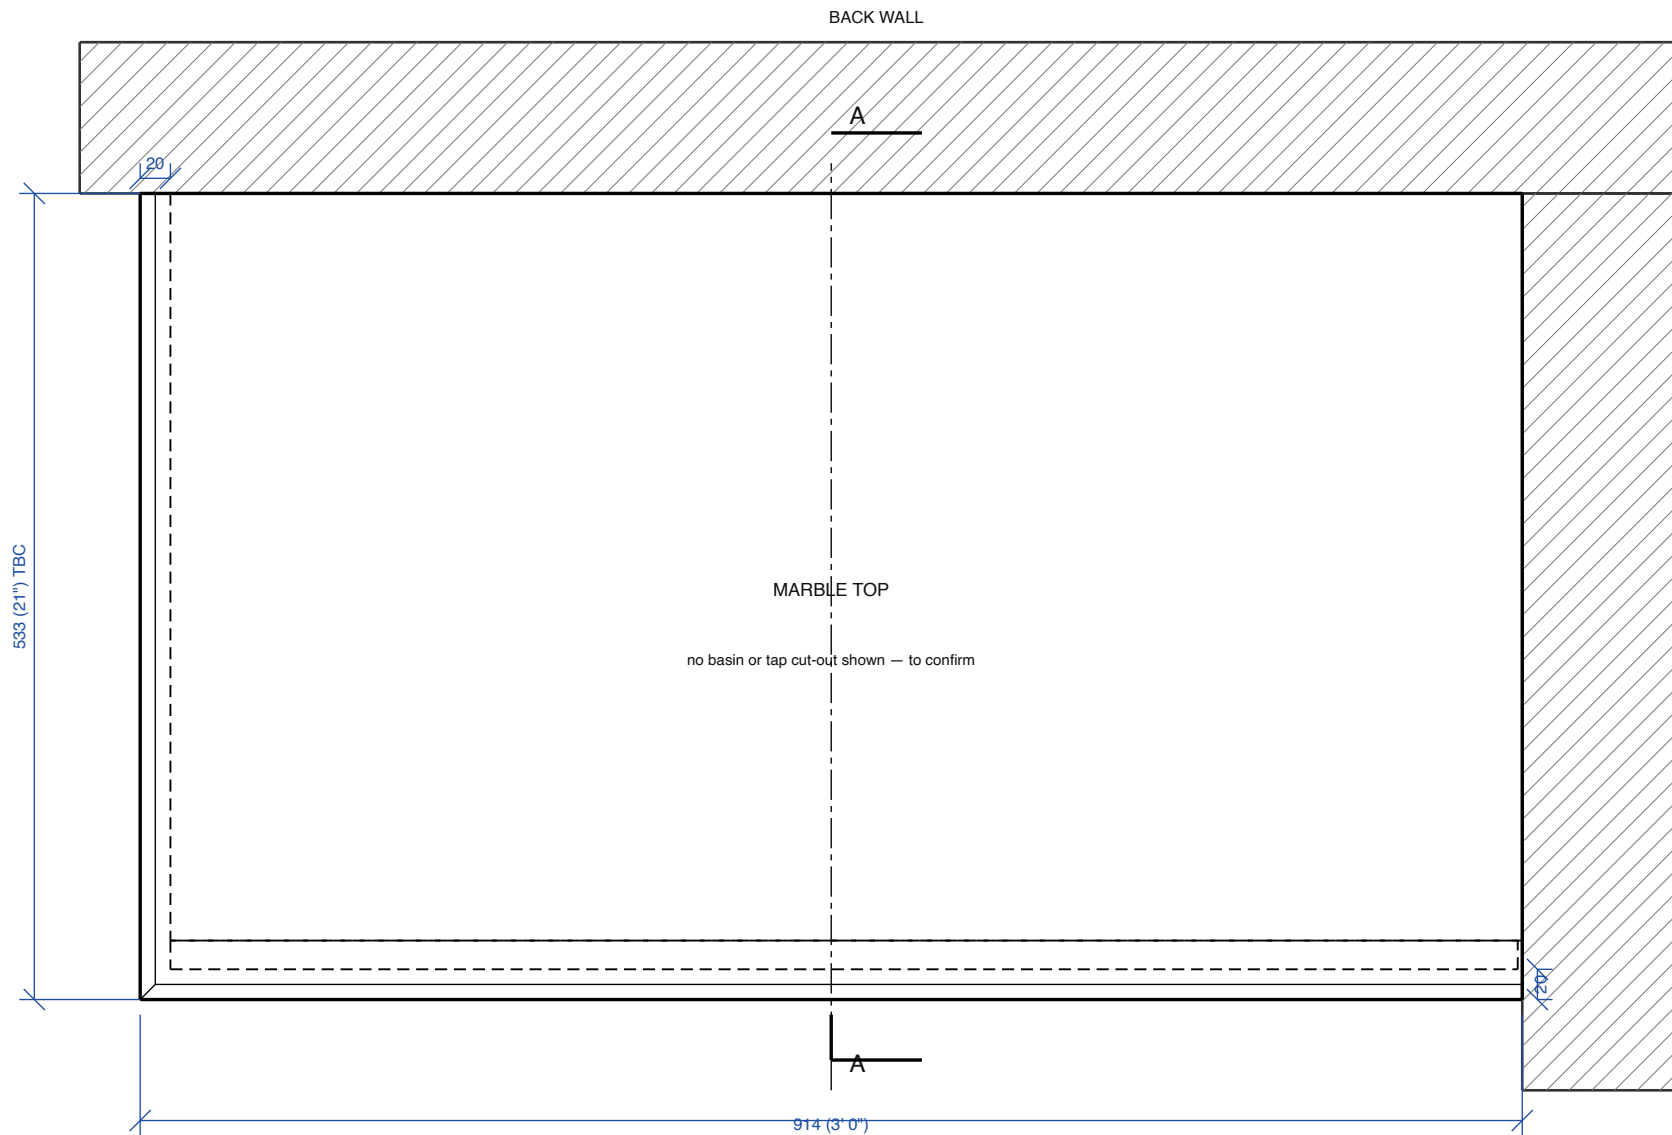

SCALE 1:2 at A3

VANITY — 3 FT, FLOATING, CORNER

Marble top with "B" edge · veneered front and left side · 2 drawers + secret drawer

For Saksham Panchal · drawn 01.10.2026 · Rev A (first issue)

Dimensions in mm (inches). Do not scale. Check all sizes on site.

PLAN
SCALE 1:5 at A3

MATERIALS

Top — the owner's beige-gold marble (as on the owner's vanity): 20 mm slab, a 20 mm strip laminated under the exposed edges for a 40 mm edge, "B" profile (detail 1), polished, to the front and left edges, mitred at the front-left corner.
Back and right edges square, scribed to the walls, 3 mm clear silicone. Stands 20 proud of the veneer, front and left.
Veneer — as the owner's vanity (9292 burl in the Dark Diva polish) on both exposed faces: drawer fronts and left side panel; also the underside, which shows on a floating vanity. Carcase 18 mm BWP ply; drawer boxes 15 mm birch ply.

DRAWERS AND HARDWARE

Drawer 1: 178 (7") front — anywhere from 152–229 (6–9") works; drawer 2 takes the rest. 3 mm reveals.
Drawers 1 and 2: full-extension soft-close undermount runners, 450 mm (Blum Movento or equal).
Secret drawer: as on the owner's vanity — a drawer within the big drawer. A 75 mm box rides at the top of the big drawer's opening on its own 400 mm runners, its front 22 mm behind the big drawer's face; the big drawer's sides stop lower so it rides clear. Invisible when shut: open the big drawer, then pull the inner one out behind it. Pulls: not specified.

FIXING

Wall-hung on a steel hanging rail and two concealed steel cantilever brackets inside the side panels, into the back wall; cleated to the right wall. Size for the stone (about 30 kg) plus contents — the fabricator / engineer to confirm.

TO CONFIRM

Depth: 533 (21") assumed — not given. Basin and tap: none shown. Pull style. Top drawer height within 6–9".
